ANOTHER CRISIS FACES EUROPE

Alarming Reports From Central Empires, Russia and Balkans Received

GERMANY OBDURATE

Refuse to Disarm Guard as Stipulated in the Spa Agreement—Simons Pleads Weakness

Paris, Dec. 30.—The world is on the eve of another European crisis. The Bolsheviki are concentrating on the frontier of Roumania and on the border of the Baltic states; Poland has demanded a formal military alliance with France; Hungary is mobilizing; Roumania has cabled to France calling attention to the activity of Hungary, which she considers threatens her territory, and Germany has told France that she cannot keep her disarmament engagement.

If the situation is not immediately improved, France will place a new national government in power, probably headed by Poincare. Foch has his staff working 10 hours a day preparing the military report for presentation to the Council of Ambassadors next Friday.

If by January 1 the Germans have not fulfilled the Spa disarmament agreements the Allies are entitled to invade her territory. Foreign Minister Simons, of Germany, already has declared officially to the Council of Ambassadors and to the Allied representatives in Berlin that Germany cannot disband her citizen guards, as the Spa agreement stipulated. He also has intimated that the Allies will not get a reparations contract at Brussels if they insist on disarmament.

French official circles last night talked with restraint of the crisis, but they did not conceal their perturbation.

special visit to Charles Laurent, the French Ambassador to Berlin, in order to inform him of Germany's inability to disarm her police organizations. The French are particularly angry that Germany should have linked the reparations question with disarmament, although Simons explained that he had no desire to appear to be trying to blackmail France.

Simons said his position was very weak. He was surrounded by men who were violently opposed to a reparations contract and who would use any excuse to upset the plan almost perfected in Brussels. He begged France not to make an incident out of the German disarmament failure. In Germany the citizen guards were considered asolutely necessary, and if France insisted on abolishing these it would help the enemies of the reparations agreement to accomplish a rupture of negotiations.

The German Ambassador Mayer visited Premier Leygues last night and in a long conference renewed the Simons arguments.

France fully admits the difficulty of Simons' position, but she considers that she cannot easily permit the German reactionary elements which admittedly are arming again to fight France to dictate a breach of agreement by the German Government.

The semi-official Temps last night says: "The German Government is not helping the task of the Frenchmen who want peace."

Anniston, Ala., Dec. 30.—William Michael, ex-soldier of Westernport, Md., who was picked up unconscious on the side of a railroad near Wellington, Ala., yesterday, told hospital attaches here he was knocked down in the baggage car of a Seaboard Air Line train, robbed and thrown out on the side of the track.

He had gone into the baggage car, he stated, to inquire about a parcel post package. A baggageman struck him when he entered the car, Michael said.

FORD PLANT CLOSED INDEFINITE PERIOD

Detroit, Mich., Dec. 30.—The Ford Motor Company's Highland Park plant, where approximately 50,000 men are employed, has been closed for an indefinite period, it was officially announced today.

The plant was practically shut down last week, when it was announced that an inventory would be taken from December 24 to January 3. While it is possible the shops may remain idle many days following the completion of the inventory, reports were current that the entire operations would be at a standstill until at least February 1.

"General financial and business conditions." were given as the cause of the shut down.

The Ford Company has been operating with practically a full force in past weeks, while other automobile plants in and around Detroit have been laying off men or working only part time.

The announcement was made yesterday by Charles Brownell, advertising manager of the Ford Company. Brownell said he was not authorized to make an official announcement, however.

FIUME SURRENDERS D'ANNUNZIO LEAVES

Not Worth While To Die For Italy Poet Declares

REGULARS SPARE FOE

Grave Losses Inflicted by Hand Grenades—Machine Guns Are Cleverly Camouflaged.

Rome, Dec. 30.—D'Annunzio has issued a proclamation declaring it is not worth while dying for Italy. He said he was leaving Fiume by airplane.

This was semi-officially announced here this afternoon, together with the announcement that the Fiume agreement might be regarded as concluded.

Complete recognition of the Treaty of Rapallo has been given by d'Annunzio's representatives at the Abbazzia conference with General Ferrario, it was indicated in a report received from General Caviglia, commander of the Italian regular forces at Fiume.

A description of the last phases of the struggle in Fiume shows that the Legionaries reopened fire against the troops, who were merely holding the positions they had taken on Monday night.

The fight assumed the character of guerrilla warfare all along the line. The Legionaries took advantage of the natural resources of the terrain for laying ambuscades.

As the regulars were advancing across orchards they were enveloped by fire from machine guns, which had been sunk to the level of the ground and cleverly camouflaged.

The houses seemed to have been abandoned, but when the troops approached the Legionaries, hidden behind windows, behind chimney stacks and on balconies and roofs, suddenly opened fire. Even women were found working machine guns.

The gravest losses were inflicted by hand grenades, which were used so freely as to give the impression that they must have been accumulated by scores of thousands.

It would have been an easy matter to get the better of the legionaries by employing artillery, but the military authorities refused such recourse except against military buildings.

The legionaries ultimately tried to force the regulars to retreat in order to relieve pressure on the city but failed.

Struck By Auto Truck

Eugene Proctor is Seriously Injured by Being Struck by Auto

Eugene Proctor, about six years old, who lives on Gibbon street, was seriously injured about 1:30 o'clock this afternoon when struck by an auto truck of Swift and Company at the corner of King and Fairfax streets. The lad was rushed to the Alexandria Hospital in an automobile by Harry Wood and treated by Dr. S. B. Moore.

The truck was driven by Chauncey Randolph, colored, who says he was making the turn at the corner when his steering gear evidentally went wrong. The boy he says was riding a velocipede at the time.

At the hospital late this afternoon it was stated that the lad would recover.

Randolph was taken in custody by Policeman Douglas Lunsford.

WILL LIVE 100 YEARS

Reading, Pa., Dec. 30.—Joel Dreibelbis, of Virginsville, in upper Berks, who says he is going to live to the century mark, reached his 94th birthday anniversary yesterday and held a celebration with his numerous relatives and many friends.

He was a justice of the peace for five terms, nearly 30 years, and in that time came to know nearly every male resident of the upper part of the country.

The celebration took place on the Dreibelbis farm. George A. Dreibelbis, son of the aged justice arranged the celebration, which was largely attended. The son at present holds the office of "Squire." The elder Dreibelbis has a great collection of Indian relics and exhibited them to his guests.

SEEK WORK AT LOW PAY

Ex-Service Men Apply for Baltimore Jobs at 30 Cents an Hour

Baltimore, Dec. 30.—Despite the fact that the remuneration of 30 cents an hour for hard labor is considerably lower than the wage scale that has been paid for similar work of late, more than 60 men applied to Superintendent Charles R. Jones at Druid Hill Park yesterday morning for work in the parks and on other city jobs at that rate.

Superintendent Jones said that there would be work for all as the city had much to complete that had not been finished last year owing to a scarcity of labor. President Boyd of the Park Board declared that if the men who were put to work on the present emergency jobs showed themselves to be competent they had a chance of becoming permanently attached to the park labor staff at the regualr wage scale of 44 cents an hour.

The men who applied for work ranged from 18 to 65 years and nearly all of them appeared to be of more than ordinary intelligence. Many of the applicants wore some sort of ex-service apparel, giving evidence both from their dress and other general bearing that they had served in the world war.

Out For Governor

State Senator Trinkle Announces Candidacy

Roanoke, Va., Dec. 30.—Senator E. Lee Trinkle of Wytheville, was here today and issued the following announcement of his candidacy for Governor

"Whilst I am an humble and ordinary citizen of Virginia, I nevertheless trust that I may not be criticised for having the laudable ambition to be the Governor of this great Common wealth, the State of my birth and the land of my love and hopes.

As to my fidelity to party and faith fulness in service, my record, I trus speaks for itself.

No man can by his merit deserve this high honor, and can only obtain it by the generosity and kindness of the electorate.

Friends from all portions of the State and from all walks of life have urgently asked and advised that I enter the gubernatorial contest, and this request, supplemented by my ambition to enjoy this honor, and my sincere desire to serve to the very limit of my capacity and ability, have led me, after a careful study of the situation and conditions as they now prevail over the State, to announce my candidacy for the Democratic nomination for Governor of Virginia, and to state that I shall make an active and aggressive campaign, confidently indulging the hope that victory will follow.

The affairs of Virginia, with the many progressive movements now on foot, call for an active, aggressive and business administration during the term of her next Governor, and, if elected, I hereby pledge all that I have to this end.

I respectfully invite a careful study of my work during the two terms of my service in the State Senate, as well as of my entire career, as an evidence of the fact that I may be depended upon to battle for those things which tend toward the uplift of our people morally, financially, materially and agriculturally and the improvement of our highways and transportation facilities.

I believe in the fundamental principles of our State Government, and upon these principles it is my hope and desire, so far as the power with in me lies, to build up a progressive, forward-looking Virginia, and to give to the state a business administration which will mean a wise economy in State expenditures, a well guarded disbursement of our road and school funds, and, consequently, as light a burden of taxation as possible, keeping in line with the march of progress in all various State enterprises.

I shall, by methods that may seem to be proper, from time to time, give my views in larger detail upon the live, burning questions of the day which are of interest to our people.

I respectfully ask of the people of Virginia that they give my candidacy favorable consideration, and such support as may be extended will be most gratefully appreciated. If I am chosen to fill the high office to which I aspire I pledge all of the time and strength and devotion of a man in the prime of life to the advancement of Virginia and the happiness and contentment of her people."

U. S. TO COMPLETE W. VA. LINE TO CAMP

Four Mile Extension Declared to be Needed at Humphreys

CAN BUY THE TRACK

Work Started During War But Was Abandoned Because of Difficulties in Financing.

The Washington-Virginia Railway Company has just completed an agreement under which the government will complete construction of the partially built extension of its lines from Mount Vernon to Camp Humphreys and will operate it on a rental basis.

Work on this extension, which is about 4 miles long, was begun by the company during the war, but was abandoned because of difficulties in financing. Considerable money was spent in grading and a portion of the track was laid. Work was discontinued shortly after the armistice was signed and for the last two years the company has derived no revenue from the money invested in the project.

The government it is understood, has agreed to complete the work in order to provide rail transportation between the camp and Washington. Under the contract the company reserves the right to purchase the portion of track to be constructed by the government in the event it should desire to operate the line on its own account in the future.

Reorganization of the Washington Virginia Railway Company begun several months ago, is said to be working out satisfactorily. M. G. Stratton, formerly efficiency engineer for the Washington Railway and Electric Company, was recently made general manager and is now in charge of operation of the system.

Arrangements are now being completed, it is stated, for the payment early in January of the semiannual interest on the underlying bonds, now in default.

Tax Cases Jan. 10

126 Property Owners Cited to Appear in Court

Notices today were served on one hundred and twenty six property owners that the local board of tax review has increased their assessments and they were notified to appear in the corporation court January 10 for the purpose of showing cause why the increases should not be made.

Judge Robinson Moncure will preside.

Sergt. R. H. Cox today completed the task of serving the notices on the property owners. The increase will it is stated be more than $100,000. The increases were made by the local board of review after the board reviewed the new assessment. Some of the houses on which they increased the amount of assessment already had been increased by the assessors who recently completed their task. The board, however, thought it entirely too low in some cases and accordingly they recommended the raise. The judge will decide whether or not the increases shall be made.

PARKER-GRAY SCHOOL

Subscriptions to Snowden School Alumni Association fund have been coming in very slowly during the last four weeks.

We stated in our last letter that we urgently needed maps, globes, charts, chairs and a table and hoped that those who have not contributed would respond promptly as these things are needed at once and will be used for the comfort and progress of your children.

We suppose you have had other demands for your funds, but save a little for us and send it to the secretary who will send you a receipt for same.

This school is for our children and we should show our appreciation of the grand work the city has done in giving us such a handsome school building.

Let us deny ourselves a little and send in your contributions at your earliest convenience.

If you intend to give anything to the funds to purchase maps, globes, charts, chairs, tables and other needed things (and I believe you do), do it now.

It insures a certain amount and encourages others to contribute. Then again, we can see our way clear to order the so much needed articles.

Send your donation to R. D. Lyles, 618 South Columbus street.

Previously acknowledged, $733.15.

Santa's Xmas Barrel

Sunday School M. E. Church South Presents Entertainment

The Sunday School of the M. E. Church South last night held its Christmas celebration in the lecture room of that church. An interesting program was given which was participated in by the scholars. It was largely attended.

The beginners' department taught by Mrs. Alvin Powell and the primary taught by Mrs. J. E. Alexander held their celebration at 3 o'clock yesterday afternoon.

Santa sends a Christmas barrel containing candy for the tots to distribute and tree trimmings and presents for the Pollyanna girls to give away at the mission school. In order to get his silver skates out of the barrel, Jim disobeyed the inscription "Do not open until Christmas" and opens the barrel. Much confusion results, but in the end everything is straightened out and all ends happily.

PERSHING URGES LESS ARMAMENT

Declares No One Nation Can Reduce Forces Unless All Do

$2,000,000 FOR STARVING

Guests Pay $1,000 Each For Seats at a Twenty-Two Cent Meal to Aid European Children

New York, Dec. 30.—An empty high chair, on the dinnerless tray of which there gleamed the yellow light of a single tallow candle, stood tonight in the center of a long, bare wooden table in the great dining room of the Hotel Commodore.

At either end of the long table sat Gen. John J. Pershing and Herbert Hoover and between them and all around them at other long wooden tables sat 960 men and women who had paid $1,000 each for the privilege of being guests at a dinner which consisted soely of boiled rice, bread and cocoa.

The empty chair marked the place of an invisible guest, the 3,500,000 starving and diseased children of eastern and central Europe—for whom the dinner, which cost 22 cents a plate, was given. The dinner receipts totaled $2,011,221, according to figures provided by John Love, chairman of the New York State committee of the European relief council.

Gen. Pershing in an address urged the governments of the world to curtail expenditures for armies and navies as the best move that could be taken toward permanent peace.

"As we contemplate the causes of the world war and realize its horrors," said Gen. Pershing, "every right thinking man and woman must feel like demanding that some steps be taken to prevent its recurrence. An important step would be to curtail expenditures for the maintenance of armies and navies.

"The world doesn't seem to learn from experience. It would appear that the lessons of the past six years should be enough to convince everybody of the danger of nations striding up and down the earth armed to the teeth.

"But no one nation can reduce armaments unless all do.

"Isn't it then time for an awakening among enlightened peoples, to the end that the leading powers may reach some rational agreement which would not only relieve the world of this terrible financial load, but which in itself would be a long step toward the prevention of wars?"

Successful Affair

Smoker of O. D., Boat Club Attended by One Hundred

One of the most interesting occasions ever given by the organization was the "Mid-Winter or Holiday" smoker given by the Old Dominion Boat Club at their club house last night. About one hundred members and guests attended. The instrumental music by the Chesser string orchestra was much enjoyed, these men are real artists in their line. The Bluemont Quartette and jig dancers were in evidence and their efforts received much applause.

Cornell and Currier in wrestling and boxing put up a clean cut exhibition, while it was generally conceded that Cockrell and Smoot, (heavy weight wrestlers), in their three bouts, put up the fastest and most scientific exhibition of skill ever seen in this city and the hope was expressed that all four could be seen again.

Then came the refreshments. The club is proud in having the most capable and up to date entertainment committee of any club in the State and they cretainly lived up to that reputation. The events, etc., were put on like clock work, and the tables were loaded down with just the things the boys like on such occasions. To see such a collection of real red blooded men and to see their keen enjoyment of every phase of the entertainment was something to be treasured in memory.

ARMAMENT AND PEOPLE

Senator Borah, commenting on his resolution for a partial "naval holiday" by the United States, Great Britain and Japan, says:

"My own opinion is that while the sentiment among the masses is very great in favor of disarmament, the same is not true of official life generally. I do not believe that any real action will be brought about looking to general disarmament unless as the result of a tremendous movement among the masses of the people practically demanding it. They ought to demand it. It is the only means whereby the nations can avoid breaking under the crushing burden of taxation imposed by growing armaments.

"The way the nations set to work after the armistice to build up vast military machines and armaments is to me one of the greatest crimes in the history of civilzaton. There is no way in the world to stop it except by such a popular movement as I have spoken of.

"We shall soon know whether the Armament Trust is as strong as it was before the war."

This view of the situation is corroborated by recent utterances at Washington and by the sentiment expressed by newspapers and public speakers around the country. It is evident that the people are tired of military burdens and are strongly in favor of limiting armament by any practicable method. But no such general enthusiasm appears at Washington.

It seems impossible that any harm could come from a 50 per cent curtailment of the naval building programs of these three powers for the next five years. There would be a big saving in each of the countries concerned, resulting in lower taxes and lower prices. More important still, the agreement would serve as an example for all the smaller powers, and would be a big, practical start at the disarmament which everybody has talked about and hoped for so long.

If the world is going to disarm, it is time to begin. It rests, as Senator Borah says, with the people themselves to determine whether official stubbornness, professional pride and the influence of the "armament trust" shall be permitted to interfere with this reform.

STANDARDIZING EDUCATION

A bill providing for the standardization of school books in the state is to be presented in the Ohio legislature this winter. Such a measure if properly drawn should do away with many of the difficulties and inequalities now existent because children in one county or district receive different training from those in others.

It is desirable from every point of view that the school work of any grade in one school should cover the same ground in another, and that the child who is transferred should be able to go on where he left off, instead of being demoted and losing valuable time, as happens when school systems are different.

There are certain contingencies to be considered, however. The ground to be covered should be determined by educational experts who know the subject from both sides of the school room door. The selection of text books likewise with every precaution observed to eliminate school book graft. Also the standards of education and books agreed upon should conform to the demands of the business world which will confront the child later on.

BETHLEHEM COUNCIL CUTS CITY'S PAYROLL

Bethlehem, Pa., Dec. 30.—Bethlehem City Council proposes to reduce salaries and wages of policemen, firemen, engineering and Street Department employees and others to the extent of nearly $50,000, in the 1921 budget. An ordinance just introduced makes cuts in the salaries of fifty policemen amounting to $120 each, or more than $5000 on this item alone.

Caruso Develops Suppuratite Pleurisy; Condition Serious

New York, Dec. 30.—Enrico Caruso, tenor, who has been seriously ill in his apartment here for more than a week, has developed suppurative pleurisy, attending physicians said last night.

Surgical aspiration was successfully accomplished, the physicians announced, and added that, although he had improved slightly during the day, his condition still was serious.

Connie Talmadge And Dorothy Gish in Double Wedding

New York, Dec. 30.—There was a double reel on a wedding screen up at Greenwich, Conn. Sunday, when all the world was recovering from Christmas indigestion.

Last night there was a "fade in" for the benefit of all movie fans and it showed Constance Talmadge and Dorothy Gish, movie queens, happily married. And it was a double wedding.

New York held its breath when first it heard that Constance had wedded and that Dorothy had followed and that it had been a double wedding.

The bridegrooms, who must be mentioned, are John Pialoglou, wealthy tobacco merchant who married Constance after besieging her two years, and Dorothy's mate is James Rennie, an actor, who at present is playing in "Spanish Love" in New York.

FRIDAY LAST DAY OF GRACE

Washington, Dec. 30.—The Bureau of War Risk Insurance called attention today to the fact that New Year's Eve will be the last day on which former service men or women who have not been out of service more than 18 months and whose insurance lapsed prior to July 1 last may reinstate all or part of their insurance, provided the applicant is in as good health as when discharged and so states in the written application for reinstatement.

After New Year's Eve reinstatement of insurance will be attended by more restrictions. On and after January 1 the applicant will be required to show that he or she is in good health at that time, regardless of the condition at the time of discharge or when the insurance lapsed. If application, on or after January 1, is made and the insurance lapsed between three and six months before, a short medical certificate of good health will be required; if the insurance lapsed more than six months before a full medical examination will be required.

EXPRESS CO. PROBES $12,000 EMBEZZLEMENT

Wildwood, N. J., Dec. 30.—Every effort is being made by officials of the American Railway Express Company to establish the blame for a shortage of $12,000 recently discovered in the accounts of the local branch of the concern. It is said that discrepancies in the books cover a period of 6 months.

It was at first reported that R. J. Summer, of Ocean City, route agent for the express company, had audited the accounts within the period and had failed to detect the manipulations. It also was stated that Mr. Summer had lost his position. These reports were erroneous. The last audit made by Mr. Summer was in March last, several months before the changes in the books were begun.

ACCUSED OF PLOT

Union President Says Strikes And Lockouts Were Proposed to Curtail Output.

Boston, Mass. Dec. 30.—Charges that representatives of the clothing manufacturers in New York City had approached Sidney Hillman, president of the Amalgamated Clothing Workers of America, a few months ago with a proposal for combinations in that industry similar to those disclosed in the building trades inquiry in New York were made by Mr. Hillman in addressing 2,500 members of the organization here yesterday.

Mr. Hillman said the proposal called for "friendly strikes and lockouts," that would force a clothing shortage and make it possible for the manufacturers to "bleed the public to the limit."

"We rejected their plans," he said, "and later, when manufacturers in Chicago, Baltimore and Rochester refused to join them the plans fell through."

A resolution declaring that the workers would not return to work in any shop unless the agreement of the Amalgamated with the manufacturers was in effect was unanimously adopted. The resolution charged that the Boston manufacturers, in announcing recently a discontinuance of relations with the Amalgamated, had joined those in New York in a conspiracy to break the organization and to retard production to such an extent that high prices would prevail and that the workers would return to sweatshop conditions.

Horse Radish Juice Is Latest Wet Dynamite

Hagerstown, Md., Dec. 30.—"Horse radish cider" is the latest concoction designed to quench a burning thirst or singe hair in Hagerstown.

Those who have had the nerve to try it say the distinguishing effect of the "cider" is to make one's lower lip hang down over the chin.

The "cider" is made from the horse radish root and is said to be "hot stuff" with a kick equal to that of a canal mule.

SING SING CROWDED WITH NEW ARRIVALS

Ossining, N. Y., Dec. 30.—Fifteen new arrivals, mostly burglars and robbers, who are to render free a minimum total of 111 years of service to the State, were received by Warden Lewis E. Lawes, at Sing Sing yesterday to start prison sentences for crimes in New York City. Warden Lawes has accomodations for only a few more after today's big rush. Examination of their commitment papers disclosed that their minimum sentences averaged seven and one half years, and that twelve committed crimes against property and three against person.

MEET COAL DEMAND

Hazelton, Pa., Dec. 30.—At the offices of some of the big anthracite coal companies in the Hazelton district it was stated today that the operators are just beginning to catch up with their orders, which have been pouring in from all parts of the East and Middle West since the opening of fall. Only regular customers were served, special requests for cars having been deferred until the demands of the ordinary trade were fulfilled.

There is said to be a slackening in the call for some of the smaller steam sizes. The open weather that has prevailed so far has also been a factor in relieving the situation.

GUARDS ROUT TWO FIREBUGS

Prevent Attempt to Burn Hotel Near Uniontown, Pa.

Uniontown, Pa., Dec. 30.—Guards early yesterday frustrated an attempt to burn the Junction House at Star Junction near here, and drove off two men who had fired a quantity of inflamables placed in a room on the first floor. Hotel guests, awakened by the shots, joined in the chase but the men escaped.

This incident was taken as additional proof that the two men under arrest here in connection with the widespread incendiarism of the past months were not the leaders in the arson ring which already has cost Fayette county residents close to $1,000,000.

Two attempts to destroy the First Presbyterian Church Building at Fairchance, near here, were frustrated today last night when the fires, started near the main entrance, were extinguished.

TWO WOMEN PERISH IN BOARDING HOUSE BLAZE

Atlantic City, N. J., Dec. 30.—Two women were burned to death in a fire which early this morning wrecked the three-story boarding house owned by Harry Risley, of Pleasantville, near here. One of the bodies is still in the ruins. The dead:

Mrs. May C. McIlhenny, aged 77 years.

Mrs. Bridge Muldowney, aged 50 years, of 16 Fleming avenue, Alantic City.

The building was completely destroyed. The estimated damage is about $12,000 partly insured.

Smelling smoke, Risley got up at about 4.30 o'clock and upon entering the kitchen discovered flames eating through the floor. Owing to his failure to procure water, either by reason of the pipes being frozen or the water being turned off, the blaze made rapid headway and soon envelop ed the interior of the building. The fire is believed to have been of incendiary origin.

DEMISE OF JAZZ MUSIC PREDICTED BY TEACHERS

Chicago, Dec. 30.—The demise of jazz music and a renaissance of good music were predicted by delegates to the National Music Teachers' Associa tion yesterday.

"Music," declared R. G. McCutchan secretary of the association, "will give the country the emotional stimul us formerly imparted by booze. A singing nation is a contented nation. Music will drown out the insidious muttering of Red agitators."

Rammed in N. Y. Harbor

New York, Dec. 30.—The Holland America liner Nieuw Amsterdam sank a steam lighter here yesterday as she was passing the Statue of Liberty, outward bound. The lighter was caught amidships, fairly cut in two and sank immediately. A swarm of harbor craft dashed to the spot to rescue the crew.

SECRET SERVICE CRIME RECORDS SET NEW MARK

Washington, Dec. 30.—Criminal activity at this time is the greatest in the history of the Secret Service according to testimony of William H. Moran, chief of the bureau, before the House Appropriations Committee. There were more arrests last year than in any single year since 1897, he said.

"At the rate we are going now, this promises to be a banner year in this respect," Mr. Moran declared. "The activity in all lines of endeavor particularly as to bank robberies is serious. I think we have an incidental interest in bank robberies, because nearly any of them are pulled off that do not involve the taking of registered bonds, unsigned bank currency or something that can easily protect. Two hundred and forty cases a month has been our average on forged checks alone."

Orphan Pigs Gave Professor His Start in College Life

Chicago, Ill., Dec. 30.—"When I was a youngster I was given two orphan pigs," said Dr. Walter Scott, president of Northwestern University today, "and with those squealing porkers as my principal asset I began my life work."

Dr. Scott, who was elected president of Northwestern University last October, was for years a professor of applied psychology at that school and is the author of various widely read books on psychology and advertising. He is a firm believer in the opportunities of today for young men.

To return to the two motherless pigs.

"I accepted the little squealers gratefully," continued Dr. Scott, "and the first thing I did was to milk our best Jersey cow and give each little fellow a bottle of milk. I continued to feed them with a nursing bottle until they were old enough to eat Illinois corn. Our family lived near Bloomington, Ill., the finest corn region in the world, and I easily fattened my two pets. Later I traded the two hogs for a calf and after feeding the calf for a time I made an impression on a fellow farmer, who owned a well-bred colt, and I swapped the heifer for that colt.

"I did my best with the fiery, high stepping, barefoot. She was mettlesome and could get over the country roads in front of a buggy at a three-minute clip. I sold her for $175 and with the money in my pocket I told my mother I was ready to start for college. I bought a ticket for Chicago and I decided to make an effort to get into Northwestern University That effort was successful and I have been with or at Northwestern a great deal of the time since."

POSTOFFICE CLERK HELD

Cumberland, Md., Dec. 30.—Melvin Eichhorn, general delivery clerk at the Frostburg Postoffice, was held in $500 by United States Commissioner Thomas J. Anderson, at Cumberland, on a charge of opening unregistered mail. Julius Abramson furnished bond.

The case will come up in United States Court here in May. Eichhorn, who has been employed regularly the past few years, is 26 years old. Eichhorn was detected by means of a decoy letter, it is stated. Following his arrest by Postoffice Inspector Murray, he is said to have confessed.

The investigation followed complaints of thefts made by patrons of the postoffice the past month. It is stated that Eichhorn admitted extracting money from the mails on several occasions.

ACCUSE AMERICAN IN PARIS

Paris, Dec. 30.—L. S. Mortimer and American and a Director of the International Trust Syndicate, has been charged with writing checks without sufficient funds to honor them by the Italo-Belgian Bank. Bank officials advanced 826,000 francs against Mortimer's check for $50,000 on the Guaranty Trust Company of New York. They say payment on the check was not met.

Mortimer, aged 36, has been living in a luxurious apartment near the Bois de Bonlogne and owned several race horses. He said he came from Rhode Island, and asserted that his father was a brother of wealthy bankers in New York.

The police say Mortimer's real name is Strasburg, and that he changed it during the war.

HOMES AND SHOPS RAIDED IN DUBLIN

Dublin Dec. 30.—The military yesterday made extensive raids and searches of residences and business establishments throughout Dublin. In Rutland square alone 500 soldiers made a house-to-house inspection and about a score of young men were arrested.

London, Dec. 30.—A movement calculated by its organizers to place the full weight of British organized labor in support of the Irish self-determination claim began with a specially convened conference of the parliamentary labor party in London yesterday, after which several members of the party's commission which investigated the situation in Ireland told of what they had observed and learned there.

A resolution adopted by a large majority of this afternoon's session of the conference voice approval of the parliamentary labor party's declaration regarding "outrages conducted in the name of the Sinn Fein and reprisals by servants of the crown," and suggests the following ground as a possible basis for negotiation and settlement of the Irish difficulties:

First, withdrawal of all armed forces; second, placing of responsibility for maintaining order in each locality in Ireland on the local authorities, and third, provision for immediate election by proportional representation of a consistent assembly charged to work out whatever constitution for Ireland the Irish people desire, subject only to two conditions, namely, protection of minorities and guarantees that the constitution should prevent Ireland becoming a military or naval menace to Great Britain.

MARSHALL FIELD 3d GOES INTO BANKING

Chicago, Dec. 30.—Despite the wealth already acquired and eventually to be inherited from the estate of his grandfather, Marshall Field 3d is going to engage in the buying and selling of investment securities. A formal statement, issued last night says:

"Marshall Field announces his plans to engage in the investment banking business in Chicago.

"Mr. Field has chosen for his associates in this work the partners of the firm of Glore, Ward & Co., and with them has incorporated under the name of Marshal Field, Glore, Ward & Co."

Mr. Field is said to be ambitious to have the name of Marshall Field occupy a place in the financial world equal to that which his grandfather established in the dry goods business.

"The entire personnel of Glore, Ward & Co. will be retained by the new company, which will have these stockholders and Directors: Marshall Field, Charles F. Glore, Pierce C. Ward, Allen L. Withers and Earle H. Reynolds."

"LOVE MESSAGE" LANDS CHESTER MASHER IN JAIL

Chester, Pa., Dec. 30.—When Albert Cotter, a young married man, of Wilmington, Del., wrote a "love message" to Miss Catherine Shammock and slipped the letter under the door of her office today, Miss Shammock notified the police and waited for Cotter to arrive. Cotter got there first and asked the young woman if she had read his letter. "Yes, indeed," she replied, "just come right in."

Cotter nearly fell into the arms of Baynes and Zimmer, policemen from City Hall. Cotter ran out of the door and down four flights of stairs with the policemen in pursuit and had gained the entrance before the latter captured him.

In police court Cotter was confronted by Miss Shammock Miss Rose Smith and Miss Catherine Campbell, all of whom accused him of writing love letters to them. Cotter pleaded that he had been drinking and tried to persuade Magistrate Elliott to release him because of his wife and child.

Cotter was held for court. Girl stenographers in the Crozer building say that Cotter has been making a nuisance of himself for some time.

FRANCE LOOKS FORWARD WITH CONFERENCE

Paris, Dec. 30.—While the French people have their worries yet they will begin the new year immensely more confident than they began 1920, because of extraordinary good crops, progress in restoring the ruined departments of the North, a plentiful supply of coal and the prospect a year hence of having the period of military service reduced from three years to 18 months.

Two foreign questions are likely to give constant concern to the Government throughout the coming year. They are the payment of reparations by Germany and the war with Turkish Nationalists over the Syrain and Cilician mandates. Then, also, there are the large general questions of the future of the Versailles peace treaty, the League of Nations and the many issues growing out of the peace conference, in all of which France has a very deep concern in what the coming year may bring forth.

GOODYEAR DEFICIT $15,647,000 FOR YEAR

Akron, Ohio, Dec. 30.—The Goodyear Tire and Rubber Company today announced a deficit for the fiscal year ended October 3, of $15,647,653 not including anticipated losses on contractual obligations for rubber and fabrics which are expected to be about $19,000,000 notwithstanding that sales exceed $200,000,000 the largest in the history of the company.

SOLVES ETERNAL TRIANGLE BY ENERGETIC METHODS

Chicago, Dec. 30.—Mrs. Rose Wribel offers to other women a successful solution of the eternal triangle. She used a rolling pin, a bed slat and a few milk bottles. She wasted no time in tears when she suspected Miss Mary Cugybek, a pretty stenographer whom she had recently taken in as a roomer. The battle was a thriller while it lasted, with the following results:

Mrs. Wrigel is at the police station charged with assault.

Miss Cugyek is in a hospital, bandaged from head to foot.

Frank Wribel, the husband, is the sole occupant of the five rooms full of wrecked furniture, battered walls, broken milk bottles, hair pins, bits of torn lingerie, strands of hair and other evidences of battle.

DRIVE ON BREWERIES HITS NEW YEAR REVELS

Wilkes-Barre, Pa., Dec. 30.—Almost on the eve of New Year's the Wyoming Valley is horror-stricken. Prospective New Year's Eve revelers are aghast as internal revenue agents go from brewery to brewery, testing and seizing.

It was bad enough when the Stegmaier Brewery was closed, the largest in this part of the State, but conditions were made much worse for the drinking man yesterday when the Lion Brewery was forced by Uncle Sam to close its doors.

There is a rush on other breweries now to obtain a stock of beer for New Year's, as it is declared that few breweries in this region will be doing business for New Year's Eve.

WILSON REFUSES $150,000 FOR WORK OF OWN PEN

Washington, Dec. 30.—President Wilson has refused an offer of $150,000 from a syndicate to write an article of his own selection on the ground that no article was worth such an amount, it was learned yesterday at the White House.

Details of the offer which was one of the many the President has received lately, were not made public.

KAISERIN GROWS WEAKER

Doorn Holland, Dec. 30.—Except for steadily growing weakness there has been little change in the condition of the former German Empress Augusta Victoria during the last fortnight. The physician in attendance said yesterday that this state might last for a considerable time.

The official statement concerning the health of the former Empress said that in recent days there had been two light attacks, which with th assistance of the patient's strong constitution were overcome. Her resistance however, is rapidly declining, partly because of her inability to take sufficient nourishment.

RUSSIAN DEMOBILIZATION HAS PARTIALLY BEGUN

London, Dec. 30.—Partial demobilization of the Russian Bolshevik army has begun, owing to the completion of the more important military operations, says a wireless dispatch received from Moscow today.

This action, the message adds, will make it possible for Soviet Russia to concentrate upon the principal economic problems of the country.
